Dear Margie

I am pretty much tied up all next week with 9/11 work. My Department at Mount Sinai is responsible for providing medical care to over 20,000 of the WTC first responders, and there is always a lot to be done each year around the anniversary.

I continue to stand by the position that I expressed last week in our meeting with Jack and Administrator McCarthy that the scientific base of developmental toxicology studies that would justify waiving the 10-fold, child-protective safety factor for 2, 4-D is thin, outdated and totally inadequate.

I believe strongly that the 10x safety factor should be imposed in this registration of 2, 4-D, and I believe that EPA is in error in making the decision to waive.

America's children will be placed at risk as a result of this unfortunate decision, which in my view runs counter to both the spirit and the letter of the Food Quality Protection Act of 1996.

Sincerely,

Philip J. Landrigan, MD, MSc, FAAP

We initially had an incorrect email address for you and you probably did not see the response from Dr. Wargo. Please let me know if you are available next week. Thanks very much.

Mar

Margie Fehrenbach

Executive Assistant to the Director

Office of Pesticide Programs

703 308-4775

Thank you so much for this offer, and please thank Jack for me.

I leave Yale on travel at noon on 9/11, and am tied up all of Friday 9/12 on a research trip. I'll be in New Haven Monday-Wednesday 9/8-9/10 as well as Thursday 9/11 before noon. With the exception of Tuesday 12-4, I could rearrange to talk any other times.

Regards,

John

John Wargo

Ordway Professor of Environmental Health & Political Science

Chair, Environmental Studies

Yale University

As a follow-up to your recent meeting with EPA Administrator Gina McCarthy regarding 2,4-D, Jack Housenger would like to set up a conference call/briefing to discuss EPA's 2,4-D assessment. Please let me know if you are available on September 11 at 3:00 pm Eastern or September 12 (anytime in the morning and after 1:30 in the afternoon). If these times are not convenient, please let me know of other options.

I am happy to help get this on the schedule. Thanks very much.
